Dear Committee Member:

I understand that you have in your possession messages that were sent from Jim White to John Leonard regarding money. I have experienced the same frustration for many years.

In June 2011, I began working for S.F. Services who was owned by Carolyn Bertino and managed by John Leonard. I had met John and Carolyn when I worked for Harleysville National Bank (later First Niagara Bank). After the merger, John told me about the new company that was forming and if I was looking for a new position to let him know. After a few months, I decided to leave First Niagara Bank to be the Controller for the company handling their payroll and bookkeeping.

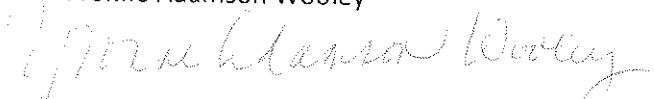

In September 2011, as the company was waiting on receivables to come in I was asked if I could help with covering the payroll until the end of the week. I agreed and wrote a check for \$10,000.00 to Carolyn Bertino. At the end of the week, I was not compensated. I saw what was due to come in and I was not worried at that point. What I did not know is that John was holding onto bills from the other trucking companies so I did not know how much money was actually owed. I told them both numerous times that I wanted my money back and every time the response was next week.

In December 2011, the company closed its doors and I went on unemployment. I begged Carolyn to pay me back and received little \$25.00 money orders for a couple of months. I am still financially suffering from this. I was out of work for 9 months before I was able to get another job.

This whole experience has been a nightmare. I am still trying to pay the money from my line of credit that Carolyn borrowed. Both Carolyn and John are manipulative liars and crooks. I know a number of other individuals that have to scammed out of significant amounts of money as well. Someone needs to stop this reign of terror.

Sincerely,

Yvonne Adamson Wooley
